•• smaider

it's yours

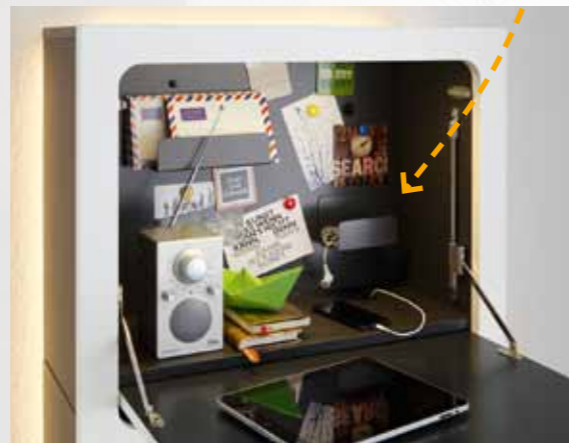

cool Smartphone-style

versatile usability

smaider is the bureau of the 21st century. With its slender size of 118 x 65 x 27 cm, the handsome space-saver fits into the smallest room and exercises the most stylish way of combining vast storage space and a practical writing surface. Smart, metropolitan and flexible – **smaider** proves real class and is an intelligent piece of functional furniture with cult potential.

smaider – it's yours.

multimedia connection

A slight push of the lateral flaps in the base opens a whole new world of storage options. The complete lower part of the smart designer furniture provides enough space for folders, boxes and many others items – and can be opened from both sides. Behind the solid fold-out writing surface, **smaider** also offers a useful magnetic wall which allows memos or the two included magnetic pockets to be placed as desired. **smaider** is open for everything: home office, private bureau, centre of communications or special eye catcher.

movable pockets

pure storage space

modern range of colours

mat or high gloss

A modern, anthracite-coloured body and six eligible front colours ensure a whole lot of creative freedom. Remarkably bold or discreetly demure, the fresh shades of colour in mat or high gloss fulfil every single style wish. Thus, **smaider** easily adjusts to every working and living area and is an unforgettable design experience for all of its beholders.

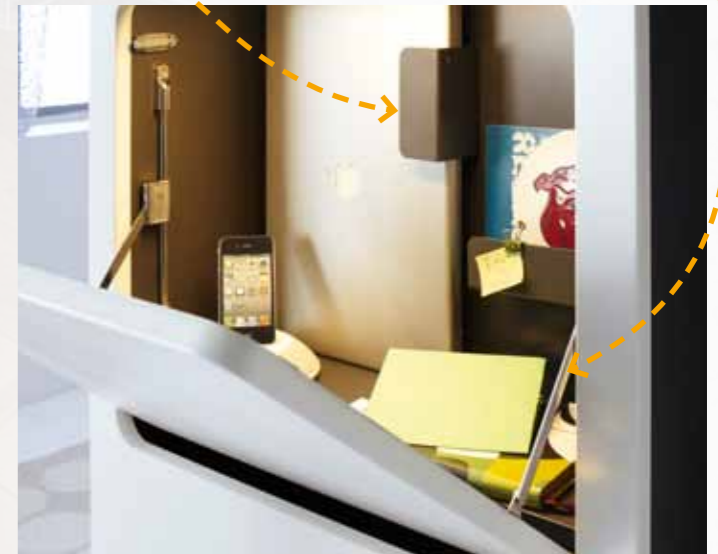

fancy illumination

smaider is a real luminary. With its indirect lighting, the modern bureau creates a cosy, snugly atmosphere. Apart from that, the energy-saving LED light batten in the inside provides a bright work illumination that is being switched on and off independently from the background lighting. For Smartphones, tablet PCs & Co., the functional furniture keeps a practical electric power supply via an unobtrusively integrated connector strip at hand.

magnetic repository

high-quality fittings

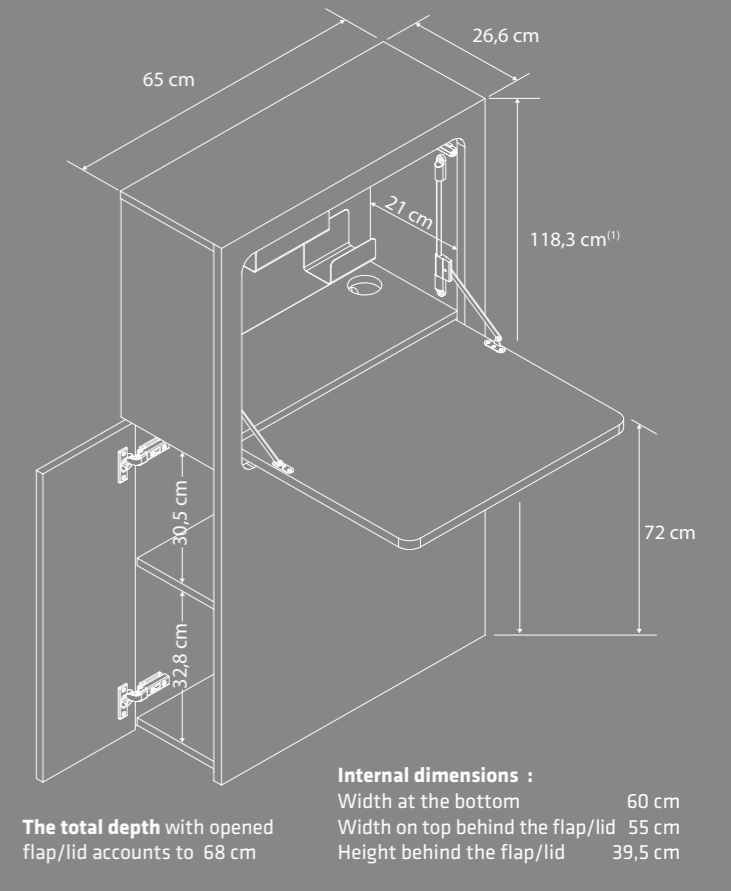

technical refinement

smaider is a technical genius – and that, it proves in all its details.

- High-quality fittings
- Metal back board for the application of magnets
- Durable, energy-saving LED lighting
- Multi-outlet power strip (230V AC, 12V DC)
- Cable feedthrough (Ø 60 mm) from the writing compartment to the lower storage space. An additional cable feedthrough (Ø 60 mm) allows the further passing of the cables through the back board to the outside.
- Magnetically adhesive pockets
- Push-to-open-function
- Easy, self-explanatory assembly

Produktname		smaider
